

How to tighten the screws

Find your model in the table

Assembly section	Tightness	Models
	tight (no spring)	#61,#75
	tight (spring in green) (Short screw is recommended)	#72,#73,#77,#87,#88 #89
	medium (spring in green)	#94,#93,#90,#86,#85 #83,#82,#81,#80,#79 #78,#76,#71,#70,#69 #68,#67,#66,#65,#64 #63,#62,#60,#59
	loose (spring in green)	Mostly applicable to 'medium' category. Not recommended in general.

1. Tighter is usually better since the spring we provide is soft.
2. Early products had been using longer screws. You can either insert thick washer when necessary or request for short screws in the <Accessory & free parts> directory at our homepage:

Product Information Card

Product Name	Crazy Chopper
Model NO.	#78
Design	VeryPuzzle Co., Ltd(HK)
Manufacturer	VeryPuzzle Co., Ltd(HK)
Year of release	2020
Maximum diameter	115 mm
Visible moving parts	92 pcs
Coloring strategy	simplified Delauney
Number of colors	12 colors
Sticker type	textured
Sticker protection	Yes
Number of sticker pieces	152 pcs
Axis & Symmetry	C(C4)+RD(R4)
Maximum parts shared between two axes	3 parts
In-core spring	Yes
Adjustable tension	No
Technical Name	C1RD5-M5
Topological Print	C39RD39
Core specification	CORD100
