

How to tighten the screws

Find your model in the table

Assembly section	Tightness	Models
	tight (no spring)	#61,#75
	tight (spring in green) (Short screw is recommended)	#72,#73,#77,#87,#88 #89
	medium (spring in green)	#94,#93,#90,#86,#85 #83,#82,#81,#80,#79 #78,#76,#71,#70,#69 #68,#67,#66,#65,#64 #63,#62,#60,#59
	loose (spring in green)	Mostly applicable to 'medium' category. Not recommended in general.

1. Tighter is usually better since the spring we provide is soft.
2. Early products had been using longer screws. You can either insert thick washer when necessary or request for short screws in the <Accessory & free parts> directory at our homepage:

Product Information Card

Product Name	9TH Megaminx Ball
Model NO.	#73
Design	VeryPuzzle Co., Ltd(HK)
Manufacturer	VeryPuzzle Co., Ltd(HK)
Year of release	2019
Maximum diameter	95 mm
Visible moving parts	122 pcs
Coloring strategy	Voronoi
Number of colors	12 colors
Sticker type	textured
Sticker protection	Yes
Number of sticker pieces	192 pcs
Axis & Symmetry	D(C5)
Maximum parts shared between two axes	9 parts
In-core spring	Yes
Adjustable tension	No
Technical Name	D9
Topological Print	D72
Core specification	DI80
